### Post Covid Emergency

The comfort and safety of our Guests - and our staff - are our priority. Today more than ever, these values are the north star that guides us to guarantee clients the full enjoyment, in total serenity, of Grand Hotel Majestic "già Baglioni, in the heart of Bologna, a city full of beauties to visit, delights to taste and passions to live: experiences that involve all the senses.

Grand Hotel Majestic "già Baglioni" implements a new methodological approach of preventing COVID 19 by sanitizing with hydrogen peroxide using specific equipment and procedures. This innovative process of environmental sanitization and prevention of COVID 19 involves the nebulization, in semi-stable mist, of hydrogen peroxide, the active ingredient that, under the conditions described, represents the gold standard in this field. Microbiological tests show that thanks to this treatment, an effectiveness superior to any other traditional cleaning/sanitizing practice can be achieved. To guarantee the hygiene of the treated textiles, the laundries of Pedersoli Group have been certified since June 29, 2007 according to the scheme UNI EN 14.065 -RABC Assosistema CONFINDUSTRIA Guidelines- which establishes specific standards and operating methods with certificate of compliance.

At the Hotel we take all necessary measures to protect our Guests, with our trademark transparency and professionalism. Both at the reception and at the entrance to the Food & Beverage areas there are photocell dispensers with automatic disinfectant gel dispensing and signs are clearly visible recommending all guests to comply with the safety regulations on distancing. For a pleasant start to the day in absolute tranquility, it is possible to reserve breakfast, which will be served in the privacy of your own room.
