Safety

SAFETY AND AREAS

Our first goal is to **take care of all guests**, making their stay a **pleasant, relaxing** and above all safe experience. For this reason, we would like to share with you all the initiatives undertaken to ensure a **high degree of hygiene** and **safety** throughout the Hotel.

COMPLETE AIR RENEWAL

Thanks to a state-of-the-art ventilation system, **we guarantee a complete air renewal in every guest room**, the conference rooms, in our **GURMÈ RESTAURANT**, and in every common area throughout the Hotel. This technology guarantees the **highest safety standards**.

DISTANCING AND AREAS

Another key point is the distance: given our **wide spaces**, we can **maintain the distancing** required to ensure a safe environment. Furthermore, to prevent contagion, we have implemented as follows: **limited access** in the lobby, **room service** available for every meal, a **complete reorganization** of the Buffet Breakfast as per safety regulations, all safely served by our staff. **AEMILIA HOTEL** also has **large outdoor spaces** available to guests, surrounded by greenery, where is possible to spend pleasant hours of relaxation.

DISINFECTION

Another possible route of transmission is through the contact surfaces. At the restaurant, the solution we have adopted takes the name of "**Virkon**": a liquid designed to **sanitize the operating rooms that is sprayed** on the main contact points of the buffet and on the tables after every meal.

Cleaning has always been one of **our strength**: even in the face of the ongoing health emergency, we can say that we are fully committed to this issue, that **our standards** are highest than ever and we are not willing to compromise.

STAFF TRAINING

Information is one of the most important tools to limit the spread of the virus.

We train our staff constantly about the protocols that must be respected, so that they can handle the emergency to **the best of their ability** and can share their knowledge with our customers. Which is why, through **specific trainings**, the staff has been **qualified** and adequately trained in all departments on hygiene protocols.

Awards

Our focal point has always been the **customer satisfaction**. Our staff works tirelessly to **make our Guests as satisfied as possible**. We are glad to see how thousands of guests over the years and to this day continue to **recognize the quality of our service** in the main social networks.

TESTIMONIALS

Hotel always up to expectations. Definitely a reference point for business travel in Bologna. Moreover, after the recent renovation, even more welcoming and functional.

Liliana Nesti - Corporate Travel Manager A. Menarini IFR - sr

During the opening of our flight path to the United States in the summer of 2019, Aemilia Hotel proved to be an excellent partner in welcoming our team of colleagues from all over the world. The Staff was always available in managing reservations and accommodating every guest request. Variations and modifications were handled by the front desk manager and staff with punctuality and impeccable precision. Rooms and amenities reflect everything that is expected of a four-star hotel, with the addition of modernity and elegance. The proximity to the center of Bologna made staying overnight with colleagues a unique experience to enjoy the city life. Dinner in the restaurant and a drink on the rooftop, with an exclusive view of the historic center, almost makes you forget you are in town for work. Aemilia will remain a point of reference for our next stays in Bologna.

Emanuele Casto - International Security Coordinator - American Airlines - Milan/Venice Airport
