SAFETY AND AREAS

Our first goal is to **take care of all guests**, making their stay a **pleasant, relaxing** and above all safe experience. For this reason, we would like to share with you all the initiatives undertaken to ensure a **high degree of hygiene** and **safety** throughout the Hotel.

DISTANCING AND SPACES

An important aspect are the large, **liveable spaces** available, which allow us to **maintain the distancing** required to ensure a safe environment. Furthermore, to prevent contagion, we have implemented as follows: **limited access** in the lobby, **room service** available for all our catering services, **complete reorganisation** of our buffet breakfast according to the current safety rules, safely served by our staff. **SAVHOTEL** also features **large outdoor areas** for guests to enjoy, surrounded by greenery, where they can spend pleasant hours of relaxation.

DISINFECTION

Another possible route of transmission is through the contact surfaces. At the restaurant, the solution we have adopted takes the name of "**Virkon**": a liquid designed to **sanitise the operating rooms that is sprayed** on the main contact points of the buffet and on the tables after every meal. **Cleaning** has always been one of **our strengths**: even in the face of the ongoing health emergency, we can say that we are fully committed to this issue, that **our standards** are higher than ever and we are not willing to compromise.

STAFF TRAINING

Information is one of the most important tools to limit the spread of the virus. **We train our staff constantly** about the protocols that must be respected, so that they can handle the emergency to **the best of their ability** and can share their knowledge with our guests. In this regard, through **specific training**, our staff was **qualified** and adequately trained in all departments on the topics of hygiene rules and measures to be observed.

TESTIMONIALS

The needs of our clients, who are major multinational companies operating in the global pharmaceutical industry, are many and varied, and it is sometimes complex to try to satisfy all requests. I have to say frankly that Savhotel is an excellent partner. All the staff are always available for any request, quick in answering and everyone is super friendly with our customers. The NeroArancio restaurant provides a very high quality service (cuisine and service) with innovative but also traditional proposals that honour the food and wine culture of our city and our customers are always satisfied! The feedback from my clients who have stayed at Savhotel has been extremely positive.

Ferrarini Anna - Sales Assistant - IMA S.p.A. - IMA LIFE division

There are no words to describe the experience I had during a wonderful stay of over two years at this amazing hotel. The classy welcome is exactly in style with the context; elegance, never heavy, is present in every corner of the hotel. I renew my compliments to the staff and the management who, as always, manage to impress their guests.

Massimo Collini - Director at Titan Italia Spa

Savhotel has hosted actors, singers and technicians from our theatre and they have all been so delighted with the rooms, the service and the exquisite hospitality that they always return with pleasure to your hotel. The restaurant was also excellent. The Savhotel is now a reference point for our theatre.

Lauretta Cappelletti - Teatro Europauditorium General Coordinator
