

OcsaService

Overview

OcsaService has been operating locally and nationally for more than 20 years in providing technical services for the convention and event industry in general. Its experience, based on thousands of events, has made the highest quality a standard. The awareness of working in an ever-changing industry leads the company to be always up-to-date and ready to offer quality services through the use of the latest technologies. It offers customized solutions that respond from time to time to different types of clients and events. It is not just a service, but a technical partner, offering its clients all-round assistance.
